

1000 RESPONSES TO THE HOUSING CRISIS

Hearing God's call to be hospitable, creative and compassionate

We all know stories about the housing crisis. Friends who can't afford a home or struggle to pay rent. Families forced to stay in motels or sleep in their car. Children getting sick because their home is too cold and damp.

WHAT IS THE ROLE OF CHRISTIANS IN A HOUSING CRISIS?

This election Bishop Justin calls you to join a period of prayer, reflection and action. As church members – homeowners, renters, landlords, communities and voters – we will consider the part we can play.

Join us over the month of August as we work through reflection resources (suitable for church services or small groups), watch videos of other Christians' creative responses, and open our hearts and lives to personally respond to this crisis. If you are in Wellington, come to the Housing Election Forum on Wed 9 August.

Then on 27 August, as part of a national week of action on housing, join with other churches to hold services of lament for New Zealanders living without stable or adequate housing. Commit to your own personal and collective response - and get started.

Join in.
